PREFACE

State-Approved Schools of Nursing—LPN/LVN 1985 reports the results of NLN's annual survey of schools of nursing, covering the period between August 1, 1983, and December 31, 1984. The publication provides a comprehensive directory of all 1,279 LPN/LVN programs in the U.S., with alphabetical state listings. As in past years, NLN has maintained a response rate of 100%. Lists of schools of nursing in the U.S. are maintained by NLN and are updated each year by questionnaires sent to boards of nursing. Newly opened programs and those that have recently closed are listed at the end of the directory. The directory lists all state-approved nursing programs preparing students for LPN/LVN licensure. For each school, the following information is included: address, telephone number, director, accreditation status, state board approval, financial support, administrative control—as well as admissions, enrollments and graduations. Unless otherwise indicated, all schools listed must be state approved.

A new "footnote" feature is being introduced in this year's edition. The footnotes are intended to help the reader understand some of the new options available to the contemporary nursing student as well as to clarify unusual features of some programs. A description of the footnotes appears on page 2 and it is suggested that you read them carefully.

A few schools have requested that the statistical information provided in the annual survey not be listed in the directory. This request has been honored in the school listings.

Under the revised format for NLN's research publications, the complete findings of the League's LPN/LVN survey will be published in *Nursing Data Review—1986*. This will report the updated nationwide trends for the LPN/LVN student population, spanning a 10–20 year period.

Nursing Data Review—1986 will also include findings from the other NLN research modules: *Nursing Student Census with Policy Implications*, and *Nursing Faculty: Socioeconomic Trends*. We hope users will find this format helpful in facilitating access to NLN's research findings.
